CRITIS case number and secure supply

the framework, agreed benchmark and the effect to be tested before the first run.

Recalculate the relevant number of cases of an approved hospital. Connect status date, relevant proof date and professional re-entry test.

Legal entity, service and audit period

Specify the identifier, status, period and responsible body.

Confirm calendar year and installation

Compare case population, approval and, if necessary, joint plant operation. Document duplicates and exclusions.

Evaluate threshold and timing

Confirm the previous status and check the following date. Perform the detection date specified by BSI separately.

Evidence of technical impact and release

Compare time value, complete order assignment and documented release in the same run.

CRITIS case number and secure supply

The completed case shows how the target, observation and follow-up are related.

N06 · A proven further full-station case increases the number of 29.999 to 30.000. The sample processes 119 out of 120 orders in 65 minutes. Despite the time taken, the professional approval remains open.

Test question Should or Compare Observation Decision		
Case inventory 30.000 full-station cases	After confirmed correction exactly 30.000	Check 1 April for first threshold change
Subject 75 minutes and 120 correctly assigned orders	65 minutes and 119 orders	Subject release remains open
CRITIS-Ter min	Establishment with evidence Not yet confirmed determination	Resubmission of the demonstration mission

Which result is passed

Case number, evaluable threshold change and technical release with documented data quality.

Comparison with your own process

What is the acceptance or result of your actual data?

CRITIS case number and secure supply

Confirm the observations and place a specific order for open points.

1 Case inventory

Criteria and agreed target value observation and clear evidence

2 samples

Criteria and agreed target value observation and clear evidence

3 CRITIS date

Criteria and agreed target value observation and clear evidence

Evaluation and open findings

Decision, deviation from the target and the performance concerned.

Follow-up and release

Enter the responsible body, due date, re-certificate and release if necessary.
